#### CITY OF FORT SASKATCHEWAN

#### **2017 BUDGET ADOPTION**

#### **Motions:**

- That Council approve the 2017 Operating Budget dated December 13, 2016, establishing total operating revenues and expenditures at \$74,225,560, which includes \$16,971,982 for the Utilities Budget.
- 2. That Council approve the 2017 Capital Budget dated December 13, 2016 establishing total capital revenues and expenditures at \$19,922,433.
- 3. That Council approve the Fort Saskatchewan Public Library's 2017 Operating and Capital Budget dated June 8, 2016, establishing total revenues and expenditures at \$1,341,143.
- 4. That Council approve an equal distribution of tax reductions between the residential and non-residential sectors.

#### Background:

The *Municipal Government Act* (MGA) directs a Council to approve an operating and a capital budget for each calendar year. The budget is the tool used to allocate the City's financial resources and support the various services and programs provided to residents.

Appendix 1 outlines the overall 2017 Operating Budget inclusive of the utility budget and decisions made by Council at this year's budget meetings.

Appendix 2 outlines the overall 2017 Capital Budget incorporating the changes made during this year's budget meetings.

The 2017 Fees and Charges Bylaw will be presented for Council's consideration under separate cover subsequent to adoption of the 2017 Budget. The Fees and Charges Bylaw includes updated utility rates. Based on an average residential monthly consumption of 14 cubic meters, the average residential monthly bill is proposed to increase by \$4.75.

The *Libraries Act* directs a Library Board to prepare an annual budget for Council's consideration. The Fort Saskatchewan Public Library's 2017 Operating and Capital Budget is attached as Appendix 3 and incorporates the City's 2017 grant increase to the Library of \$83,730.

On November 21, 2016, Councillor Blizzard introduced a motion, which was subsequently referred, to equalize the distribution of tax reductions between the residential and non-residential sectors.

#### **Projected Property Tax Changes:**

During this year's budget meetings, Council was presented with several options for determining the 2017 property tax rates as follows:

- 1. A fixed tax split of 59.279% non-residential to 40.721% residential (rounded to 59/41);
- 2. A fixed tax split of 58.279% non-residential to 41.721% residential (rounded to 58/42);
- 3. A residential tax increase of 0%;
- 4. An equal distribution of the tax reductions between residential and non-residential.

A summary of the proposed property tax impacts under the various options is shown in Table 1 below:

<sup>\*</sup> Rounded

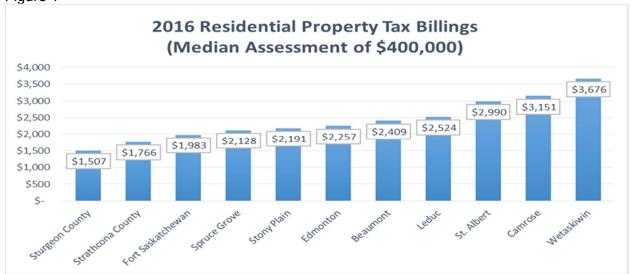

The property tax impacts are based on a residential household assessed at \$400,000 and a non-residential property assessed at \$1,000,000. For ease of reference, figures for the tax split percentages and property tax dollars are rounded to the nearest whole number. However, for calculation purposes, the actual (non-rounded) figures are used.

The City also collects and remits a provincial education levy and the Heartland Seniors' Foundation levy. The levy amounts will be provided to the City by the spring of 2017, at which time the Property Tax Rate Bylaw will be prepared and presented to Council for approval.

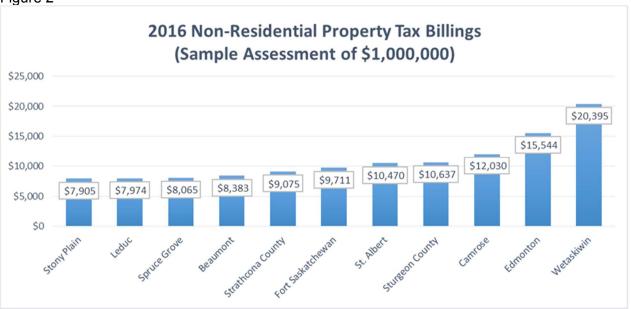

#### **Municipal Comparators:**

The following two graphs (Figures 1 and 2) compare Fort Saskatchewan's 2016 residential and non-residential municipal property tax billings to other regional municipalities. For comparative purposes, the figures exclude education and housing requisitions.

Figure 1

Based on 2016 property tax rates, Fort Saskatchewan ranked third lowest in residential property tax billings with an average household assessed at \$400,000 paying \$1,983 in municipal property taxes. In regard to non-residential property tax billings, the City ranked in the middle of the comparators with a non-residential property assessed at \$1,000,000 paying \$9,711 in municipal property taxes.

#### **Taxation Philosophy:**

In 2015, Council began a discussion on the distribution of property taxes between non-residential and residential property classes. The City's tax revenue ratio has progressed from a near 70/30 split in 2006 to a fixed 60/40 split in 2015. Although no policy direction was established, Council did decide to change the ratio for 2016 by one percent to basically a 59/41 non-residential / residential split.

During previous discussion by Council, the concept of fairness of a tax split philosophy has come up. Although a definition of what fairness should look like was not established, it is known that the tax split philosophy is a normal practice within municipalities and one supported through provincial legislation.

The level of property taxation is one of many factors that can impact the retention and attraction of residential and non-residential owners. Some of the other factors include amenities, location, proximity, customer and workforce base, transportation networks and environmental conditions. As shown in this report, for 2016 property taxation in Fort Saskatchewan is one of the lowest in the region for residential and in the middle for non-residential. One benefit that Fort Saskatchewan has over similar mid-sized cities is the amount of industry located within its borders. All these factors put together have contributed to a strong industrial base, a wide range of local businesses, and a diverse, growing residential population within Fort Saskatchewan.

Over the last few years, the City has experienced some challenges with using a fixed tax split especially when growth in one sector outpaces the growth in another. Although other municipalities use a tax split system many are based on a flexible concept, meaning that any increase or decrease in taxation is shared between the two sectors. Needless to say more discussion, research and analysis is required to determine the best solution for Fort Saskatchewan.

Based on the information presented, Administration recommends that in 2017 Council set aside a number of workshops to explore what the best solution is for Fort Saskatchewan regarding a tax split philosophy. Further until such a philosophy is established, for 2017 an equal distribution of the tax reduction be applied to the residential and non-residential sectors.

#### Recommendations:

- 1. That Council approve the 2017 Operating Budget, Capital Budget and Library Budget as presented.
- 2. That Council approve an equal distribution of tax reductions between the residential and non-residential sectors.

As a result of our significantly increasing numbers, we are requesting a grant increase from the City of Fort Saskatchewan of 7.7%, further details below:

#### Staffing for Programming, Patron Support, Interlibrary Loan

With our increasing numbers comes a need for additional staffing hours to maintain our excellent level of service. We plan to add 28.5 hours per week from our existing complement of part-time public services staff during our regular hours.

#### **Staffing for Technological Support:**

As per our budget for 2015-2018, we are planning to increase our level of on-site technical support by an additional 7 hours per week for 2017. We currently have 3.5 days of onsite IT support in a library with over 40 staff and public computer stations, public and staff Wi-Fi, various servers, numerous software programs, and new technologies including digital creative stations and our new "Adaptive Technology Station" for the visually and physically challenged. We were pleased to open our hi-tech "Makerspace" on February 25<sup>th</sup>, 2016 as well. Our need for additional on-site support continues to grow.

#### **Additional Open Hours on Sunday**

One of the most frequent requests we receive is to increase our open hours. We therefore plan to add 3 open hours per week from September through June on Sundays opening 10 am to 5 pm (increased from 1 pm to 5 pm). (The Library is closed on Sundays for July and August.)

#### **Collections**

Within our collections budgets for 2016 we have continued to re-align expenditures between fiction, non-fiction, and various formats (Blu-rays, DVDs, etc.). We also continue to recognize the growing popularity of digital resources - e-books, e-magazines, research databases, etc. – and have thus allotted additional funds in these areas.

#### **Comments Regarding Revenue:**

#### **Provincial Funding**

We were pleased to receive news that the funding from the Province of Alberta for 2016 (and thus anticipated for 2017) shall be using 2015 census data (as opposed to 2014 census data). This assists us as a growing community, we thus expecting an increase in revenue for 2017.

#### **Enrich the Experience Fundraising Campaign**

Our fundraising campaign included a number of donations to be spread out over 5 years. The anticipated amount pledged for 2017 is approximately \$2000. This is to be spent almost entirely on capital items to continue enriching collections, technologies and other library resources.

We welcome you to review our budget documents and ask any questions you may have. We look forward to our opportunity to address Council in regard to our grant request.

Yours sincerely;

#### **Quarterly Variance Reports - Progress Update**

#### Motion:

That Council refer consideration of the following motion made at the November 14, 2016 regular Council meeting to the January 24, 2017 regular Council meeting:

That Administration bring a report forward to the December 13, 2016 regular Council meeting:

- a report outlining what resources are needed to transition from the current variance reporting process to a new analysis, by department of the monthly actual income and expense reporting as compared to the actual budget for the same period;
- the revised variance reporting analysis is to be reviewed quarterly with Council; and
- 3. the feasibility of beginning the new process as of March 31, 2017.

#### Purpose:

To outline the progress that has been made to date on research into transitioning from the current variance and forecasting process to a monthly variance analysis by department.

#### Background:

Variance analysis and forecasting are essential management tools that the City uses to evaluate organizational performance and to assist Council and the Leadership Team in decision-making.

The transition to reporting monthly variances by department on a quarterly basis would enhance the City's forecast and variance reporting processes and cash flow management. This additional information would serve as a useful tool for assessing departmental performance on a monthly basis.

#### **Analysis:**

Administration has undertaken initial research and assessment of the City's current systems and processes and the potential for transitioning to a monthly analysis of revenues and expenses by department.

The research and assessment that has been initiated thus far includes the following:

- Review of current variance reporting processes and requirements;
- consultation with the City's budget software developers;
- review of options and strategies for implementation and required resources;
- analysis of the costs and time requirements;
- coordination of work schedules and impacts to staff workloads;
- · research into best practices and municipal comparators; and
- additional training requirements.

Administration requires additional time to complete its research into the requirements for transitioning to monthly variance reporting by department.

#### BYLAW C18-16 TO ESTABLISH FEES, RATES AND CHARGES FOR SERVICES

#### Motions:

- 1. That Council give first reading to Bylaw C18-16, which establishes fees, rates, and charges for services provided by the City of Fort Saskatchewan.
- 2. That Council give second reading to Bylaw C18-16, which establishes fees, rates, and charges for services provided by the City of Fort Saskatchewan.
- 3. That Council provide unanimous consent to proceed with third and final reading to Bylaw C18-16, which establishes fees, rates, and charges for services provided by the City of Fort Saskatchewan.
- 4. That Council give third reading to Bylaw C18-16, which establishes fees, rates, and charges for services provided by the City of Fort Saskatchewan.

#### Purpose:

To present Council with information on Bylaw C18-16, which establishes 2017 fees, rates, and charges for services by the City of Fort Saskatchewan.

#### Background:

The *Municipal Government Act*, R.S.A. 2000, c. M-26 provides that municipal Councils may by bylaw establish fees for services provided by the municipality.

Annually, Administration reviews fees and charges established the previous year and recommends changes to Council during the budget process. Fees and charges established through the review and 2017 budget process are reflected in Bylaw C18-16.

In order to collect the revenue outlined during the budget deliberations, it is necessary to approve this Bylaw. The fees will come into effect on January 1, 2017.

When information was first entered into the fees and charges schedule for the 2017 budget, there was an increase of 7% on arena fees (page 14). This was higher than the fees normally increased, as the City was hoping to recover some of the fees now that the teams are no longer being charged for ice floods. Upon discussion with the Ice User Groups, it was determined that this was not manageable for their programs so the amount was reduced to 4%. When the changes were made from 7% to 4%, some items were missed in the fees and charges schedule during budget deliberations. The following fees outlined in yellow, shows which fees were reduced from 7% to 4%.

### Bylaw C19-16 Debenture Sewer Service Reline Construction

#### Motion:

That Council give first reading to Bylaw C19-16 to incur indebtedness by the issuance of Debentures to the Alberta Capital Finance Authority for the purpose of sewer service reline construction, in an amount not to exceed \$1,200,000.

#### Purpose:

To present Council with information on Debenture Borrowing Bylaw C19-16 for the purpose of sewer service reline construction, and recommend that first reading of the Bylaw be given.

#### Background:

As a result of Council approving the 2017 Capital Budget, and the requirements of the *Municipal Government Act*, a borrowing bylaw must be passed before construction of the sewer service reline project can begin. Once Council gives Bylaw C19-16 first reading, advertisements will be published in a local newspaper for two consecutive weeks. The Bylaw will be presented for second and third reading once the required advertising has occurred.

#### Plans/Standards/Legislation:

Sections 251, 253, 254, and 258 of the *Municipal Government Act* outlines municipal legislation for debenture borrowing.

#### **Financial Implications:**

The borrowing bylaw is in an amount not to exceed \$1,200,000, as per approved Capital Project #17021, included in the 2017 Budget. The anticipated cost of debt servicing using the current interest rate is approximately \$150,000 over 10 years. The actual term and interest rate of the borrowing will be determined upon application to the Alberta Capital Finance Authority.

The City's principal amount of the outstanding debt at December 31, 2015 was \$41,331,223. The 2015 debt limit for the City was \$102,981,335.

#### Recommendation:

That Council give first reading to Bylaw C19-16 to incur indebtedness by the issuance of Debentures to the Alberta Capital Finance Authority for the purpose of sewer service reline construction, in an amount not to exceed \$1,200,000.
