Community Sustainability Plan – 2014 Update

NE – Natural Environment

NE2	Incorporate the natural environment, greenways, and parks in the overall design of the City.
------------	--

Municipal Development Plan – Bylaw C16-10

Designation: Developing Community (DCA)

10.0 Parks and the Natural Environment

10.1.1	Provide all neighbourhoods with access to passive and active recreational opportunities.
10.1.5	Promote public space programming to encourage residents to use the open space that is available within the City and to encourage civic pride.

Westpark Area Structure Plan – Bylaw C8-13

Designation: Park

4.5.2 Green Space Policies

- Protect the natural environment and native vegetation, including West River's Edge Area and the Fort Saskatchewan Prairie, and other mature or regenerating tree stands from any damaging activities.
- Ensure all parks and open spaces, schools and recreational sites are connected through trails/or and walkways. Facilitate continued development of community and regional trail systems that provide connectivity for both leisure and commuting purposes.
- Trails and Public Utility Lots shall be minimum 6 metres width to facilitate access for emergency and maintenance vehicles.
- Wherever possible, existing tree stands and wetlands should be preserved and incorporated into the community.
