 - ▶ CT scanner now operational 16 hours/7 days per week

Heartland Primary Care Network

- ▶ All of the FSCH family physicians are members of the Heartland Primary Care Network
- ▶ The FSCH works closely with the PCN, currently focusing on frequent visitors to the Emergency Department, and how the PCN may be able to support those patients and decrease their need for emergency care
- ▶ The PCN is a key stakeholder in the development of the new Women's' Health Program, and will sit on the steering committee as the program is developed

Fort Saskatchewan Community Hospital Foundation

- ▶ Volunteer board was established in 2008
- ▶ First campaign supporting the CT scanner was a major success
- ▶ Support staff education by providing annual scholarships to staff pursuing advanced education
- ▶ Surgical Equipment Campaign in 2015 saw \$ 250 000 of new equipment purchased for the OR
- ▶ Two exciting new proposals currently under review

Hopes and Aspirations for the future...

- ▶ Repatriation of families giving birth in their own community
- ▶ Provision of Integrated Women's Health Program in partnership with our community partners
- ▶ Continued development of programs with the Heartland PCN to support Primary Care in our Community
- ▶ Development of a Practice Readiness Centre to support the professional development of our teams, and community partners
- ▶ Continued and improved integration across the healthcare spectrum to provide seamless care to our community
